Table of Cases xi  
Table of Statutes xiii  
About the Author xv  
Acknowledgments xvii  

**Chapter One • Nanotechnology Law and Policy**  
3  
1.1 Introduction 3  
1.2 Nanotechnology Defined 4  
Richard P. Feynman, *There’s Plenty of Room at the Bottom*  
*An Invitation to Enter a New Field of Physics* 5  
1.3 History of Nanotechnology Regulation 15  
Frederick A. Fiedler Glenn H. Reynolds, *Legal Problems of Nanotechnology: An Overview* 17  
1.4 Regulating Emerging Technologies 35  
Nano-Proprietary, Inc. v. Keesman 37  
1.4.1 Addressing Uncertainty 38  
1.4.1.1 Risk Assessment and Nanotechnology 39  
Nanomaterial Risk Assessment Workshee 42  
1.4.1.2 The Precautionary Principle 45  
Notes 48  
1.4.2 The Regulation of Biotechnology 48  
1.4.3 The Regulation of a Hydrogen Economy 49  
1.5 Nanoethics 51  
Deb Bennett-Woods, *Integrating Ethical Considerations into Funding Decisions for Emerging Nanotechnologies* 51  

**Chapter 2 • Risk Assessment, Science and Regulation in Nanotoxicity**  
61  
*Kennecott Greens Creek Min. Co. v. Mine Safety and Health Admin.* 62  
Jody A. Roberts, *Collision Course? Science, Law and Regulation in the Emerging Science of Low Dose Toxicity* 65  

**Chapter 3 • Consumer Products Safety and Nanotechnology**  
81  
3.1 The First Nanomaterial Commerical Product Incident 81  
3.1.1. Germany Reports First Nanoproduct Recall 81  
3.1.2. Surface Spray Called Free of Nanoparticles 81
CONTENTS

3.2 The U.S. Consumer Product Safety Commission Role 82
3.3 CPSC Nanomaterial Statement 83
3.4 E. Marla Flecher, Stand ‘n Seal 89
3.5 Jeff Bromme, Nanotechnology and the CPSC 91

Chapter 4 • Environmental Protection and Nanotechnology 97
4.1 TSCA 97
   4.1.1 Applicable Provisions of TSCA 97
      Toxic Substances Control Act 98
      Office of Pollution Prevention and Toxics Activities Related to
      Nanoscale Materials 100
   4.1.1.1 TSCA Section 8(e) 100
      TSCA Section 8(e): Notification of Substantial Risk; Policy
      Clarification and Reporting Guidance 100
   4.1.1.2 TSCA Sec. 5 110
      Toxic Substances Control Act Inventory Status of
      Carbon Nanotubes 110
   4.1.2 EPA’s Voluntary Program in Nanotechnology 112
      Don Sadowsky, Regulation of Nanotechnology: A TSCA Perspective 112
   4.1.3 TSCA Inventory of Nanoscale Substances 117
   4.1.4 TSCA PMNs in Nanotechnology 119
      4.1.4.1 Carbon Nanotubes 119
      Toxic Substances Control Act Inventory Status of
      Carbon Nanotubes 119
      4.1.4.2 Nano TiO2 for Lithium Battery 121
      4.1.4.3 Siloxane-Coated Alumina Nano 121
   4.1.5 TSCA Consent Order for Manufacturing a Nanomaterial 121
      United States Environmental Protection Agency Office of Pollution
      Prevention and Toxics Regulation of a New Chemical Substance
      Pending Development of Information 121
4.2 FIFRA 129
   4.2.1 Nanosilver as a Nano-Pesticide—The First Product 130
   4.2.2 EPA Clarifies the Requirement for Registration of Ion-Generating
      Equipment 132
      Pesticide Registration; Clarification for Ion-Generating Equipment 132
4.3 Clean Air Act 135
4.4 CERCLA 136
   4.4.1 Toxic Release Inventory Program/Office of Solid Waste and
      Emergency Response 137
   4.4.2 EPA Technology Update on Groundwater Contaminates 137
      Environmental Protection Agency (EPA)Technology Update #2:
      Nanotechnology 138
4.5 RCRA 140
   Resource Conservation and Recovery Act 140
4.6 Office of Enforcement and Compliance Assurance 141
4.7 Clean Water Act 141
   Clean Water Act 141
4.8 Safe Drinking Water Act 142
CONTENTS

4.9 National Environmental Policy Act 143
   National Environmental Policy Act 143
   Questions and Problems 144

Chapter 5 • The Food and Drug Administration and Nanotechnology 145
5.1 Introduction 145
   Nanotechnology: A Report of the U.S. Food and Drug Administration 147
5.2 Wine and Nanotechnology: Tax Code Revisions 163
   Materials and Processes Authorized for the Treatment of Wine and Juice (2004R-517P) 163
   J. Clarence Davies, Nanotechnology Oversight: An Agenda for the New Administration 165
5.3 Cosmetics 168
   5.3.1 Sunscreen Products 169
   Barnaby J. Feder, Nanoparticles in Your Sunscreen: Too Hot to Handle? 169
5.3.2 Report from the Cosmetics Industry on Nanotechnology Regulation 2006 171
   CTFA Nanotechnology White Paper 172

Chapter Six • State and Local Issues in Nanotechnology 177
6.1 Introduction 177
6.2 City of Berkeley 177
   Matthew T. Heartney & John L. Carlton, City of Berkeley Begins Implementation of Nanotechnology Ordinance 177
6.3 City of Cambridge 181
6.4 States 182
   6.4.1 California 182

Chapter Seven • Constitutional Issues and Nanotechnology Law 187
7.1 Introduction 187
7.2 Privacy Issues 187
   Jacob Heller & Christine Peterson, Nanotechnology and Surveillance 187
7.3 Expectation of Privacy and Search and Seizure Issues 189
   7.3.1 Fourth Amendment Search and Seizure 189
   7.3.2 The Foundation of “Expectation of Privacy” in Searches 189
   Kyllo v. United States 193
7.4 Right Not to Speak and Labeling 203
   Stauber v. Shalala and Kessler 203
   International Dairy Foods Association v. Amestoy, Attorney General of the State of Vermont 205
Notes 211

Chapter Eight • International Approaches to Regulation of Nanotechnology 213
8.1 Introduction 213
8.2 International Issues and Approaches to Regulation of Nanotechnology 214
   Diana M. Bowman & Graeme A. Hodge, A Small Matter of Regulation: An International Review of Nanotechnology Regulation 214
   Gary E. Marchant, Transnational Models for Regulation of Nanotechnology 228
Chapter Eight • Nanotechnology by Region
8.3 Australia
Diana M. Bowman & Graeme A. Hodge, Nanotechnology “Down Under”: Getting on Top of Regulatory Matters 244
8.4 Canada
Anita Nador & Brian Gray, Nanotechnology in Canada 255
8.5 China
Lerwen Liu & Li-De Zhang, Nanotechnology in China—Now and in the Future 258
8.6 Cuba
Nanotech Development in Cuba Strategic 263
8.7 European Union
Citizens’ Jury to Tackle Nanotech 264
8.8 Germany
Thorsten Beyerlein, The Need and Purposes of a “Nanotechnology Act” in Germany and Europe 266
8.9 Japan
Luca Escoffier, A Brief Review of Nanotechnology Funding and Patenting in Japan 276
8.10 Mexico and Latin America
Guillermo Foladori & Edgar Zayago Lau, Tracking Nanotechnology in Mexico 281
Guillermo Foladori, Nanotechnology in Latin America at the Crossroads 294
8.11 The Middle East
8.11.1 Israel
Bob Rosenbaum, Mariana Ardetz, Dr. Daphne Getz, Dr. Daniel Shefer, Dr. Amnon Frenkel & Heather A. Stone, Israel’s Nanotechnology Research Landscape: A Survey of Israeli Nanotechnology Capabilities and Technology Transfer 306
8.11.2 Iran
Iran’s Global Nanotechnology Ranking Improves to 25th 324
8.12 Romania
Adina Morozan & Ioan Stamatin, Nanotechnology in Romania 324
8.13 Russia
Mikhail Ananyan, Nanotechnology in Russia: From Laboratory Towards Industry 329
8.14 South Africa
Keith Campbell, Nanotechnology, South Africa Moves to Create Nanotechnology Partnerships with Other Developing Countries 333
8.15 Developing Nations
Noela Invernizzi & Guillermo Foladori, Nanotechnology and the Developing World: Will Nanotechnology Overcome Poverty or Widen Disparities? 335

Chapter Nine • Intellectual Property Issues in Nanotechnology
9.1 Introduction to Patents and Nanotechnology
Application of Troiel 347
Application of Rinehart 353
Gardner v. TEC Systems, Inc. 359
Texas Instruments, Inc. v. United States International Trade Commission 365

## Table of Statutes

21st Century Nanotechnology Research and Development Act (the “Nanotechnology Act”)

Clean Air Act (CAA), 42 U.S.C. §7401 et seq. (2006), 99, 107, 135, 515

Emergency Planning and Community Right to Know Act of 1986 (EPCRA), 42 USCA §11001-11050, 137

Federal Tort Claims Act (FTCA), 28 U.S.C. §§1346(b), 2671-2680 (1948), 512

Flammable Fabrics Act (FFA), 16 CFR §1610 (2006), 95

Food Quality Protection Act (FQPA), §§408 (p)(1)-(2), 21 U.S.C. §346a(p)(1)-(2) (2006), 71

Gene Technology Act (GTA), Commonwealth of Australia, 246

German Patent Act (GPA), §§ 1-146, 271

Infertility (Medical Procedures) Act, 42 U.S.C. § 12101 et seq., 246

Mine Act, 30 U.S.C. § 811(a), (2006), 64, 54, 66

Paperwork Reduction Act (PRA), 44 U.S.C. 3501 (2006), 109, 118

TABLE OF STATUTES

Poison Prevention Packaging Act (PPPA), 16 C.F.R. §1700 (1970) 71, 86, 88, 95
About the Author

Victoria Sutton is the Paul Whitfield Horn Professor, Texas Tech University School of Law. Her background in science and technology policy, and law shaped her scholarly area of research and teaching in interdisciplinary and multidisciplinary emerging science and technology fields. From 1989 to 1991, she served as Assistant Director in the Office of Science and Technology Policy (sometimes referred to as the “White House Science Office”), where she coordinated the President’s major research initiatives in global climate change, biotechnology, advanced materials (now nanotechnology), high performance computing and communications and mathematics and science education. She also served as Assistant Director for the President’s Council of Advisors on Science and Technology, the private sector advisory group to the President. In 2005, she was asked to return to government service to assist in establishing a new science administration for transportation technologies, serving as the first Chief Counsel for the Research and Innovative Technology Administration in the U.S. Department of Transportation. She returned to academia in 2007, and began preparing to teach a course entitled, Nanotechnology Law and Policy and began work on this book.

She received her J.D., magna cum laude from the American University, Washington College of Law; her Ph.D. in Environmental Sciences from The University of Texas at Dallas, and her Master’s degree in Public Administration from Old Dominion University where she was also honored with the Distinguished Alumni Award. She has bachelor’s degrees in science from North Carolina State University in Zoology and Animal Science, cum laude.

Professor Sutton was awarded the Texas Tech University Book Award for her first book, Law and Science (Carolina Academic Press, 2001). Other books by Professor Sutton include, Law and Bioterrorism (Carolina Academic Press, 2003); and Law and Biotechnology (Carolina Academic Press, 2007).

Professor Sutton is a member of the Bars of the United States Supreme Court, the Federal Circuit and the District of Columbia.
Acknowledgments

The editors and author gratefully acknowledge permission to reprint the following articles and excerpts:

ACKNOWLEDGMENTS

Thanks to my Center Assistant Director, Brie Sherwin, J.D., Ph.D. student, who shepherded the editing process and navigated the obtaining permissions thicket. Thanks are due in no small part to Michele Thaetig, who dealt with formatting and editing issues with skill and grace.

I also thank the law students from Texas Tech University School of Law, who were enrolled in the first and second courses in Nanotechnology Law and Policy and the first to use the text in its draft form over the past two years. Their many questions and contributions aided the shaping of the book and its final form. Those students are: Nathaniel Brown, Jaime M. Canaves, John R. Caraway, Ronald D. Davenport, Kevin Deaver, Joel Delagarza, Sarah E. Hegi, Laci Lawrence, Kelly A. Morrison, Michael R. Murphy, Ellen M. Myers, Joel A. Norris, Anthony Nguyen, Bertrand A. Pourteau, Laura A. Pratt, Trey Roberson, Andrew P. Ross, Benton G. Ross, Travis D. Wells, Erik M. Williams.

Thanks to Gary Marchant, Sandra Day O’Connor School of Law, a leader in the field of Nanotechnology Law, who inspired me to write a casebook that is so cutting edge that only a few of us will use it; and to Keith Sipe, Carolina Academic Press, who has always been willing to publish law books on the cutting edge.
