## ACKNOWLEDGMENTS

I wish to express my appreciation for the talented research assistance of the Santa Clara law students who helped in the initial preparation of this book: Brian Frank, Brian Heffernan, Alexandra McClure, Ted Stevens, and Amy Treadwell. In preparing the Second Edition, I received helpful suggestions from some of the professors at other schools who have used the book in their courses, and I am very grateful for their insights. Those professors are Craig Anthony Arnold, Alan Ramo, Irma Russell, Carlton Waterhouse, and Tseming Yang. Preparation of the Third Edition was assisted with remarkable skill and diligence by Santa Clara law students Ahan Kim Morris, Hilary Stevenson, and Akshay Verma.

My thanks for their generous and hard work also go to Barbara Friedrich, Reference Librarian, and Angeles de Leon, Alyssa deMars, Dorice Kunis, and Dorothy Madden, Administrative Assistants. The gracious support of Deans Gerald F. Uelmen, Mack A. Player, and Donald J. Polden was indispensable. At the publishers, the initial interest and guidance of Sean Caldwell, Dee Dunn, and Glen Weissenberger, and the later assistance of Keith Moore and Pali Chheda, also meant a great deal to me.

My deepest gratitude is to my family: To my daughter, Jenny, for her enthusiastic, continuing interest in this project; my son, Cole, for the extra opportunities he gave me to think about the first edition of this work (and even this sentence) during nighttime feedings in his first four months in 1994; and most especially to my wife, Ann Brandewie, for her unfailing support and so much more for which I am thankful beyond words.

Finally, I gratefully acknowledge the permissions granted by the authors and publishers of the following works to reproduce excerpts in this book:

## **EDITORIAL NOTE**

In the excerpts from other works in this book, the editorial omission of words within a sentence is indicated by an ellipsis. Omissions of sentences and paragraphs, however, usually are not indicated.

Similarly, omissions of footnotes and citations from an excerpt are seldom shown. When a footnote has been retained, the original numbering has not been followed.

Footnotes appearing within an excerpt but added by the author of this book are preceded by “[Ed.]”
