Contents

Preface	xi
Chapter 1 · Introduction to the Media, Part I: Who Owns the Media and What Are the Goals of the Media?	3
Learning Objectives	4
Introduction	4
Types of Media	5
How the Media Are Organized	8
Three Rings of the Media	8
Crime in the Media	9
The Media and Business: Profit over Information?	11
Important Concepts of Corporate Influence	15
Concerns about Corporate-Owned Media	19
Implications for Crime and Corporate Crime	21
Goals of the Media	24
Propaganda Filters	26
Media Concentration and Profit-Seeking	26
Advertising	27
Relying on Official Sources	31
Flak	33
Anti-Communism	33
Outcomes of the Five Filters	35
Summary	39
Discussion Questions	41

Chapter 2 · Introduction to the Media, Part II: What the Media Do and Do Not Do, and How They Do It	43
Learning Objectives	43
Introduction	44
What the Media Do and Do Not Do	45
Models of Media Behavior	49
The Objective Model	49
The Subjective Model	54
Can Crime Be Objectively Covered in the Media?	55
Moral Panics	59
Does It Matter? Are People Exposed to the Media?	69
Summary	74
Discussion Questions	76
Chapter 3 · Media Coverage of Lawmaking and Crime, Part I: Focus on the Random, the Serious, and the Violent	77
Learning Objectives	78
Introduction	78
Media and the Law	79
Access to the Law	79
Passage of Laws	81
Lack of Depth/Context: The Case of the USA PATRIOT Act	83
Media and Crime	89
Misconceptions of Crime	89
Serious and Violent Crime	93
Homicide	97
Serial Killers	101
Random Crime	102
Sexual Assault and Stalking	108
Violence as Entertainment	111
Summary	126
Discussion Questions	129
Chapter 4 · Media Coverage of Lawmaking and Crime, Part II: Focus on the Black, the Young, and the “Crazy”	131
Learning Objectives	132
Introduction	132
No Context Necessary	133
The Same Crime, Over and Over	135

Chapter 6 · Media Coverage of Courts and Judicial Processes: Trials, Publicity, and Sentencing	233
Learning Objectives	234
Introduction	235
Ignore Most of What Courts Do	235
Focus on State Courts and Street Crime	238
Disproportionate Focus on the Poor and People of Color	240
Mischaracterize the Nature of Courtroom Procedures	241
The Great Myth of the Criminal Trial	246
High-Profile Trials	249
Cameras in Court	253
Pre-Trial Publicity	255
Sentencing	257
Bias in the Sentencing Process	259
Reinforce Crime Control	262
Courts in Entertainment	263
Court TV/truTV	263
The Practice	264
Courts in Film	265
Summary	267
Discussion Questions	270
Chapter 7 · Media Coverage of Corrections: Life in Prison and Problems of Punishment	271
Learning Objectives	272
Introduction	272
The Least Visible Component of Criminal Justice	273
Misrepresent the Nature of Punishment	276
Ignore That “Getting Tough on Crime” Does Not Work	278
Ignore the Costs of Punishment	282
Ignore the Pains of Imprisonment	285
Ignore the Mentally Ill in Criminal Justice	292
Ignore Biases in Corrections	294
Women in Prison	297
Death Sentences, Executions, and Exonerations	298
Murder and Death Penalty Trials	299
Death Sentencing	301
Executions	302
Death Row	309

Impact on Public Opinion	313
Implications of Media Coverage of Capital Punishment	315
Corrections in Entertainment	317
Oz	317
Lockup	318
Death as Entertainment	318
Prisons in Film	320
Summary	322
Discussion Questions	325
Chapter 8 · Summary, Conclusions, and Reform	327
Learning Objectives	327
Introduction	328
Explanations of Media Inaccuracy	331
Organizational Factors: Entertainment for Profit	333
Peer Culture	338
Lack of Criminal Justice Education	338
The Role of Politics in the “Framing” of Crime	340
So What Can Be Done?	343
Two Outlandish Possibilities?	343
Media Reforms Being Pursued Now	344
Other Possible Reforms	346
Summary	348
Discussion Questions	350
Activities	351
Endnotes	353
Index	409

Preface

Every citizen, every day, has contact with the media in some form. We live in homes with televisions that provide us with both news and entertainment, we work and play on computers and the Internet, and a huge portion of Americans use their phones not only to communicate and network with others but also to gain information and for fun. The media are inescapable. As a result, the media impact our world in very important ways.

A large portion of what we get from and see in the media pertains to crime. News about crime and criminal justice and entertainment centering on it are widespread. Thus, crime and punishment are often on the forefront of Americans' minds.¹

Unfortunately, images of crime and criminal justice in the media tend to diverge from reality in important ways. This explains why people who rely on media for their information about crime and criminal justice tend to hold misconceptions about crime, criminals, and criminal justice practice. *Media Coverage of Crime and Criminal Justice* critically examines media coverage of crime and criminal justice to help correct these misconceptions and shed light on important realities of crime and criminal justice in the United States.

While there are other texts on the market focused on the impact of mass media on criminal justice, this text is unique in at least two ways. First, this book is the only one that starts with the issue of corporate ownership of the mass media as a potential problem for gaining an accurate understanding of the realities of the world, including issues of crime and criminal justice. Second, this text presents basic information about the media in the introductory chapters and then applies this information to specific issues of crime and criminal justice in the rest of the book, thereby focusing on the same issues and themes throughout the book, and assisting with reader comprehension of the material.

In this book, the reader will learn what is meant by the terms “media” and “mainstream media” and also will learn about alternative sources of media information. Topics analyzed include how the media are organized, how they operate, and to what degree citizens are exposed to the media. Additionally, the book analyzes competing explanations of why the media cover crime and criminal justice the way they do, using examples from the real world to answer the question.

The book deals with media coverage of law-making and crime, policing, courts, and corrections. There are separate chapters on media coverage of each branch of criminal justice, with reviews of the literature focused on the most recent and influential research on these topics. The book also examines how the media both help and hinder effective crime control and crime prevention efforts. The book concludes with a summary of the book as well as suggestions for media reform, based on major findings of the book.

Most of the book deals with media that are aimed at providing information to citizens (the news, for example). Yet, the book also analyzes literature on entertainment media and how issues of crime and criminal justice are depicted on television and in films. This is important for at least two reasons: First, crime is very popular in modern entertainment; and second, most U.S. citizens spend more time interacting with entertainment media than with news media.

In my teaching and writing about criminal justice reform in the United States, I’ve learned that little criminal justice reform is possible without considering needed reforms in the way American media are organized and operate. One goal of this book is to provide the information necessary to understand how to achieve such reform. While the book can thus be considered “activist” in nature in that it clearly has an agenda, the material is presented in a fair and objective manner. First and foremost, the goal of the book is to tell the truth about the media.

I start with this important point: It is impossible to fully understand criminal justice—the law, crime, police, courts, corrections—without studying the media. This is because the media play such an important role in criminal justice policy. The media impact criminal justice policy directly (e.g., by featuring criminal justice officials in stories) and indirectly (e.g., by impacting public perceptions of crime, justice, and injustice). Ray Surette agrees, writing “crime, justice, and the media have to be studied together because in twenty-first century America they are inseparable, wedded to each other in a forced marriage. They cohabit in an often raucous, sometimes riotous, but ultimately unavoidable relationship.”²

Given the numerous interrelationships between the media and criminal justice agencies, it is not possible to fully understand criminal justice practice without understanding the media. If you are a student of criminal justice, read-

ing this book will not only teach you about the media but will also help you gain a more complete understanding of the realities of criminal justice practice.

Each arrow in the figure represents a relationship between some aspect of criminal justice and the media. For example, when crimes are committed—especially certain types of crimes (e.g., random, violent crimes against innocent victims)—they are often broadcast in the news media. The media also rely on police personnel for information about crimes after they occur as well as allow the police to appear in their stories. At each stage of the criminal justice process, the media play an important role, as when the media cover a high profile criminal trial or an escape from a prison.

Finally, it is important to note that there are new examples of media coverage of crime, criminal justice, and related topics literally every day. For this reason, it is important that you pay attention to the news and entertainment media as you read this book. By doing so, you will see the most current examples of issues and topics raised in this book.

Features

The author of the text created and maintains a blog on media coverage of crime and criminal justice, which is available at: <http://mediacriminaljustice>.

blogspot.com/. The blog is updated several days a week with stories in the media. Students can go to this blog, register as a new user, subscribe to the blog, and then participate in discussions with the author as well as other users on the latest stories being covered in the media.

In addition to the blog, the text features learning objectives to alert readers what they should learn as they read the book as well as matching discussion questions that can be used to test your knowledge and generate discussion in and out of class. Key terms are also identified to alert readers of the most important concepts identified in the text. Finally, activities are included at the end of the book that can be used in class or out of class that allow readers to apply material from the book to the real world and that empower readers to make the material more relevant for their own lives.
