We wish to thank the students whom we have had the pleasure of teaching using these materials and the many professors who adopted the book in their IP tax courses, including Professors Mary LaFrance, Annette Nellen, David Andrade and others who were brave enough to adopt the text before it was even in final form. We extend special thanks to Professor David Cameron who provided perceptive comments and concrete suggestions for the first edition of this book, and to Professor Stephen Black, Professor Andrew Blair-Stanek, and Professor Mitchell Engler, who provided constructive suggestions for the second edition.

We wish to express our gratitude to Dean Richard Gershon and Dean Peter Pitegoff for providing us support for this project. We could not have completed the book without the contributions from reference librarians Anna Teller and Julie Welch whose research assistance was invaluable. We also wish to thank Joy Gallagher for her patience and endless hours revising the first edition, and Kristine Brockett for her valuable assistance with the second edition.

We remain indebted to many former and current students who assisted with the first and second editions, particularly: Ryan Almy, Sam Baldwin, Benjamin Birney, Nathan Brown, Michelle Carlson, Jill Cramer, Jennifer Di Fonso, Cindy Fuqua, Tudor Goldsmith, Robert Jemerson, Christina Jenkins, Stephen Jones, Kimberly Latham, and Mari Stewart.

Professor Maine would like to thank his mentors Dean Richard Gershon and Professor John (Jack) Miller, whose constant support and guidance have led him into a fulfilling professional life. Professor Maine dedicates this book to his late father, John Maine, who passed away during the writing of this second edition.
