## Series Note

The Legal Research Series published by Carolina Academic Press includes titles from states around the country as well as a separate text on federal legal research. The goal of each book is to provide law students, practitioners, paralegals, college students, laypeople, and librarians with the essential elements of legal research in each jurisdiction. Unlike more bibliographic texts, the Legal Research Series books seek to explain concisely both the sources of legal research and the process for conducting legal research effectively.
