## *Get courtroom experience with Evidence Challenge!*

Want a higher score on your evidence exam? Throughout this publication, you will see notations at the end of chapters for further case challenges related to the evidence topic. To prepare you for exams and challenge your comprehension, go to [www.EvidenceChallenge.com](http://www.EvidenceChallenge.com) to purchase access to the website. This interactive problem- and role-based exam preparation tool is available as a companion study aid for this publication. The interface was developed by an education expert partnering with LexisNexis® product development teams. Evidence Challenge case problems give students the opportunity to repeatedly practice application of chapter-relevant rules and concepts while preparing for exams.

### *Here's how it works:*

- Launch a problem, and enter a virtual courtroom where you are one of the attorneys.
- Uncover all the information you need for the questions posed by clicking on the characters and exhibit icons in the courtroom.
- You may be prompted to review further resources including documents, images, audio or video.
- Each problem offers a variety of possible responses and a feedback loop that tells you where you need to focus your studies.
- Links to applicable case problems will appear at the end of chapters in this publication:

**EVIDENCE CHALLENGE:** Challenge yourself to learn more about this topic. Enter the following address into your browser to access Evidence Challenge and apply these concepts to realistic problems set in a virtual courtroom.

<http://www.EvidenceChallenge.com>. Additional purchase required.

- Each problem will take 5 – 10 minutes to complete as you work through various decision points in the realistic courtroom scenario: read instructions, review testimony or other evidence, link to the Problem Study Resources on Lexis Advance® and choose how to proceed.
- At the conclusion of the problem, review your detailed results page, see how well you answered each question within the problem, and see your performance relative to how others scored.
- Depending on your score, you may be granted an achievement!
- Retry problems when recommended, or just play them again for practice and to improve your score.
